*I attended the ICAgile ICP-ACC course with tryScrum. Trainers' knowledge of the course and how to explain it with relatable examples were very useful and excellent. Furthermore, he took time to address all the questions, he also made me introspect with examples, and questions and was open-minded to understand the points I had to share. The way he handled multiple participants with diverse professional backgrounds was excellent. The pace of the course was good and suited me. The course material and case studies have been well researched and are intense. Thank you, tryScrum, for giving me a wonderful experience.*

#### Who should Attend?

Scrum Masters, Agile Coaches, and aspiring coaches if you desire to explore and practice other stances like facilitation, professional coaching, mentoring, and teaching in service of Agile teams. Other relevant roles include Project Managers, Program Managers, and anyone in Leadership roles. Although it is not a formal prerequisite, a fundamental understanding of one of the Agile frameworks would be helpful.
