

About Our CAL Educators

The approved CAL Educators who offer Certified Agile Leadership demonstrate years of real-world experience and success coaching agile teams and supporting agile transformations. Our CAL Educators support your success beyond the classroom with a comprehensive resource library, and a strong alumni community.

CERTIFIED AGILE LEADERSHIP

Our Certified Agile Leadership (CAL) offerings are designed to bring positive change to your organization by helping you embrace the agile leadership model that fits you. Learn to lead agile teams by practicing agile principles and leveraging agility to drive sustainable improvements in any business. The CAL program consists of three foundational certification modules: CAL Essentials, CAL for Teams, and CAL for Organizations. To master these concepts, take at least two prerequisite foundational modules, then progress onto CAL II, which features a blend of validated practice, advanced education and peer-driven workshops.

CAL is your next step to becoming a better leader, no matter your title or experience! From senior executives and managers, organizational influencers, change agents, and leaders on Agile teams - CAL helps you nurture a more successful and joyful workplace, deal more effectively with workplace challenges, and become the best Agile leader for your organization and needs!

Certified Agile Leadership Essentials

Certified Agile Leadership Essentials (CAL-E) courses bring awareness and understanding to the foundations of agile leadership. Discover the way agile leaders think, focus, and behave.

Certified Agile Leadership for Teams

CAL for Teams (CAL-T) shows you how to create a safe-to-fail environment and foster a culture of transparency, inspection, and adaptation to allow for experimentation and continuous learning within your teams.

Certified Agile Leadership for Organizations

CAL for Organizations (CAL-O) is designed for leaders and executives to learn the practices and principles of agility and how they apply to business/organizational agility. Participants gain knowledge, skills, and techniques to create sustainable agility in their organizations.
